Annandale Independent School District is located in the city of Annandale. Annandale Schools has an approximate enrollment of 2,000 students from the communities of Annandale, Silver Creek, South Haven, and the surrounding townships.

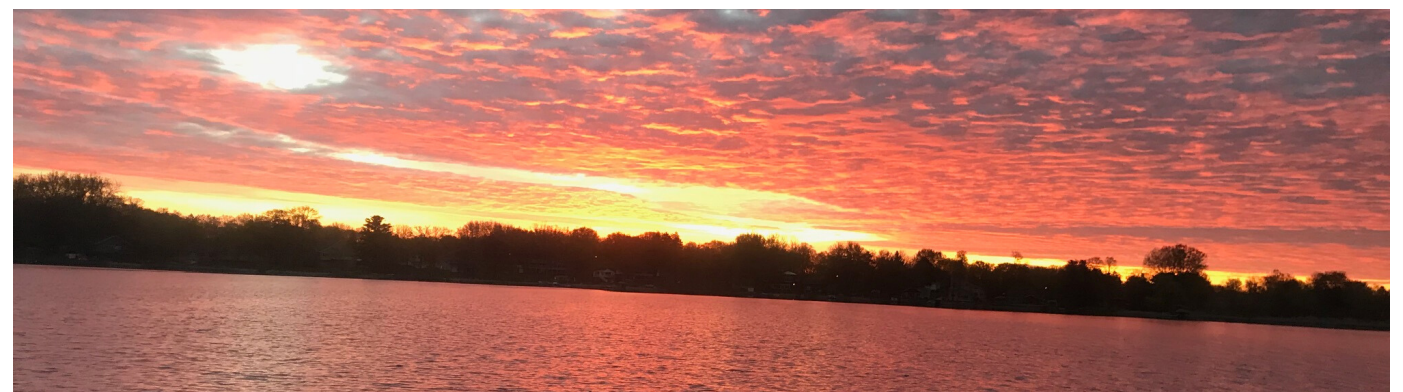

Annandale Independent School District employs 140 licensed staff, 130 support staff, three principals, three deans of students, two counselors, three social workers, a superintendent, a business manager, and a human resources director.

Annandale is located on MN HWY 55 about an hour west of Minneapolis/St. Paul and 30 minutes south of St. Cloud.

ACADEMICS

- The district has fully implemented Response to Intervention in the areas of reading, math, and behavior.
- A variety of concurrent courses available for students at Annandale High School through St. Cloud State University and Southwest State University.
- An hour-long lunch allows Annandale High School students to access teachers for help as needed.
- The high school has introduced Learning Spaces that provide more personalized learning and increased student ownership of learning.
- The middle school has initiated academic support programs for students before, during, and after school to maximize individual achievement.

The Annandale area is home to many quality lakes and the community has adopted the slogan, "Heart of the Lakes". An annual Fourth of July Celebration and the Heart of the Lakes Triathlon are large community events attracting thousands of visitors to the community. A variety of outdoor and recreational opportunities are present in the area.

SCHOOL DISTRICT

- Highly experienced and qualified staff at all grade levels.
- High percentage of students participate in fine arts, clubs, and athletic programs.
- Variety of elective courses offered for high school and middle school students.
- Small grade-level class sizes at Annandale Elementary.
- The district has implemented Q Comp professional learning communities (PLCs) and literacy-focused staff development.
- Envoy Classroom Management practices are being utilized within the elementary and middle school.
- The district provides a wide range of programming for early learners.
- A wide range of recreation, education, and enrichment activities are offered for all community members.
- The district has developed and implemented a strong anti-bullying effort at all levels.
